SUBJECT INDEX TO VOLUME 61

Ag(I)
  binding to phytochelatins, 125
Alginate
  lead(II) ion binding by sodium, 221
α-Diimine
  and 1,2-diamine with 2-Pyridinecarboxylate anion, 179
Aminosugars
  copper(II) ion binding by 1,6-anhydro-derivatives, 213
1,6-Anhydro-derivatives of aminosugars
  copper(II) ion binding, 213
Anthraquinones
  interaction with biologically important redox couples, 79
Antibiotics
  synthesis of three novel compounds of norfloxacin, 197
Antimicrobial activity
  sulfacetamide metal complexes, 143
Antitumor activity
  anthraquinones interaction with redox couples, 79
  cisplatin analogs, 291
  palladium(II) complexes, 261
  rhodium(II) complexes, 55
Ascorbic acid
  oxidation by Fe(III) benzohydroxamine acid complex, 155
Azotobacter vinelandii bacterial ferritin
  iron release from, 1
Bacterial ferritin
  from Azotobacter vinelandii, 1
Bipolar affective disorder
  Li^+ and, 273
Calcium
  phosphorus monoanions and, 25
Carminic acid
  complexes of mitoxantrone and, 79
cis-1,4-DACH
  synthesis, characterization, and antitumor activity of platinum complexes with, 291
Cisplatin analogs
  synthesis, characterization, and antitumor activity, 291
Clay minerals
  peptide evolution and, 69
Cobalt(II)
  synthesis and characterization with sulfacetamide, 143
Cobinamide analogs
  synthesis and characterization, 15
Coenzyme B_{12}
  synthesis and characterization, 15
Copper
CuPTSM release from human serum albumin, 251
$Cu(TAAB)^{2+}$ vs. CuP_2, 227
  nuclease mimetic effect of $Cu(TAAB)^{2+}$, 227
Copper(II)
  ion binding by 1,6-anhydro-derivatives of aminosugars, 213
  L-γ-glutamyl-L-∈-lysine and, 165
  synthesis and characterization with sulfacetamide, 143
Copper(I, II)
  carminic acid and mitoxantrone interaction with, 79
CuPTSM
  release from human serum albumin, 251
Cyanide
  porphyrins interaction with imidazole and, 233
Cyclic anhydrides
  peptide evolution and, 69
Cytosine
  VO^{2+} interaction with, 285
Cytostatic activity
  rhodium(II) complexes, 55
2′-Deoxynucleosidylcobinamides
  synthesis and characterization, 15
1,2-Diamine
  and α-diimine with 2-pyridinecarboxylate anion, 179
Dibutyltin(IV)
  L(+)-ascorbic acid compounds with, 97
Dimethylthallium(III)
  L(+)-ascorbic acid compounds with, 97
Dimethyltin(IV)
  L(+)-ascorbic acid compounds with, 97
DNA-binding
  palladium(II) complexes, 261
Epimino nitrogen
  copper(II) ion binding by 1,6-anhydro-derivatives of aminosugars, 213
Fe^{2+}/vitamin C system
  lipid peroxidation with, 43
Fe(III) benzohydroxamine acid complex
  ascorbic acid oxidation by, 155
Glutathione
  selenoprotein W and, 117
Human serum albumin
  CuPTSM release, 251
Imidazole
  porphyrins interaction with cyanide and, 233
Iron
  Azotobacter vinelandii bacterial ferritin and, 1
  Fe^{2+}/vitamin C system for lipid peroxidation, 43
Iron(III)
  Fe(III) benzohydroxamine acid complex, ascorbic acid oxidation by, 155
  paramagnetic metalloporphyrins, 233
Iron(II, III)
  carminic acid and mitoxantrone interaction with, 79
L(+)-Ascorbic acid compounds, 97
Lead(II)
  ion binding by sodium alginate, 221
L-γ-glutamyl-L-∈-lysine
  copper(II) and nickel(II) complexes with, 165
Li^+
  uptake into human 1321 N1 astrocytomas, 273
Lipid peroxidation
  Fe^{2+}/vitamin C system for, 43
Magnesium
  phosphorus monoanions and, 25
Manganese complexes
  paramagnetic metalloporphyrins, 233
Metalloporphyrins
  paramagnetic, 233
Mitoxantrone
  complexes of carminic acid and, 79
Montmorillonite
  peptide chain prolongation on, 69
Myo-inositol 1,2,6 tris(phosphate)
  zinc complexes, 63
Nickel(II)
  L-γ-glutamyl-L-∈-lysine and, 165
  synthesis and characterization with sulfacetamide, 143
Norfloxacin
  synthesis of three novel compounds, 197
Nuclease reaction
  copper complex reaction with $Cu(TAAB)^{2+}$, 227
Nucleotides
  VO^{2+} interaction with cytosine in, 285
^{31}P NMR studies
  D *myo*-inositol 1,2,6 tris(phosphate)-zinc complexes, 63
Palladium(II) complexes
  DNA-binding and antitumor properties, 261
Peptide chain prolongation
  montmorillonite and, 69

SSDI 0162-0134(96)00023-2

Peptides
phytochelatins, Ag(I)-binding to, 125
Phosphorus monoanions
distortion, 25
Phytochelatins
Ag(I)-binding, 125
Platinum(II) complexes
synthesis, characterization, and antitumor activity, 291
synthesis, characterization, cytotoxic, and DNA binding studies, 179
Porphyrins
interaction with cyanide and imidazole, 233
Psychiatric therapy
Li^+, 273
2-Pyridinecarboxylate anion
1,2-diamine and α-diimine with, 179
Pyrimidine bases of nucleotides
behavior of, 285
Quinolone
synthesis of three novel compounds of norfloxacin, 197
Rhodium(II) complexes
cytostatic activity and, 55
Selenoprotein W
glutathione in, 117
Sodium alginate
lead(II) ion binding by, 221
Stearic acid
CuPTSM release from human serum albumin and, 251
Sulfacetamide
synthesis and characterization with cobalt(II), nickel(II), and copper(II), 143
Transport behavior
Li^+, 273
Tripeptides
glutathione in selenoprotein W, 117
Vitamin C
Fe^{2+}/vitamin C system for lipid peroxidation, 43
VO^{2+}
interaction with cytosine in nucleotides, 285
Zinc
D *myo*-inositol 1,2,6 tris(phosphate)-zinc complexes, 63
phosphorus monoanions and, 25
